💼 Employment history

Intern/trainee as Web developer, Devtown.
Aug. 2021 – Jan. 2022

DevTwon previously was known as ShapeAI is a start-up that provides training and internship in Machine Learning, Cybersecurity, Data Science and Full-Stack Web Development.
I worked there as an intern in which I created projects using:
Html/Css, javascript, NodeJs, ExpressJs, React framework, mongoDb for database management

Jr web developer, Madhya Gujarat Vij Company Limited (Government Sector).
2019 – 2020

Worked on a web application with my team at Gujarat's electricity providing company (MGVCL). TND Loss calculation system is user-friendly and easy to use web application. Multiple employees can do work simultaneously on it which was/is not possible for current DOS based system, which is also not so user-friendly(Bad/Hard UI).

Users: MGVCL employees

Language/Framework/Database: C# / .NET MVC Framework / MySQL
📖 Skills
HTML/CSS

Javascript

CSS frameworks(Bootstrap, tailwindCSS)

Docker

AWS

MongoDB

React Framework

NodeJS/ExpreesJS

🎓 Education
